A: NECK SIZE

Use the tape to measure around the base of your neck, where it meets your shoulders. Put a finger between your neck and the tape measure for a looser fit collar.

B: CHEST/BUST SIZE

This measurement should be taken beneath your armpits, around the widest part of your chest/bust and shoulder blades. Make sure to keep the tape measure horizontal, and don't pull to tight or hold your breath while measuring.

C: WAIST SIZE

MEN: Put the tape around your natural waistline, which should be to your bellybutton. Put one finger between the tape and your body before you measure.

WOMEN: Measure around your natural waistline. This is the narrow part of your waist, about an inch above your navel. Relax and breathe out before you measure.

D: LEG LENGTH

This is measured between your groin and your lower ankle. You may find that it's easier measured on a pair of trousers that already fit you.

*Please note; All of the information displayed on this page is intended as a guide only and is purely given to assist you in choosing the correct Dickies product for your needs. Garments will usually measure larger than the information in the guide, as the information given is 'to fit'.
